

Hello Marie:

Thank you for checking in-I so appreciate it! Yes, I think the training was great, and Kimberly is a dream to work with, as well as you!

I'm ready to turf most of the remaining work over to his staff soon. He's in reliable hands, and my work as a consultant for this project is near completion. The only thing left so far that we're waiting on is the email address/domain name/hosting, I had thought that Randy was working on this. He tells me that he spoke to you, and that Maury is the go-to for this? Let me know if I need to call Maury to find out details & how soon this can happen. Dr. G & staff are anxious about this.

Thanks for everything you've accomplished for us-I will certainly use you for any additional projects that come my way, gladly!

Sue Stevens  
Consultant for Interventional Pain Management
