To Whom It May Concern:

Matrix Networks installed a new Mitel IP phone system for our Company in June, 2006. I have been through a number of phone system selections and installs and, by far, this selection and installation process was the most efficient and trouble-free. Best yet, the IP Phone system and supporting voice mail, mobile extension and teleworker systems all worked as promised with very few problems. Since then, when changes or repairs have been needed, Matrix has been here to help us with the solutions in a timely and professional manner. We highly recommend Matrix Networks to anyone interested in purchasing a new phone system or looking for a phone system repair provider for your existing system.

Thank you Matrix Networks for providing quality service and products to our Company during these past three years!

Sincerely,

A handwritten signature in blue ink, appearing to read "Maureen Sproviero Davis".
