To: Team Matrix

I wanted to send a thank you to Robert, Carol, and the whole team at Matrix. I own several companies and handle all decisions daily, so time management and feeling secure in my phone systems, maintenance, and tech support is crucial to my operations. I just reached my one-year anniversary with our new phone system and I couldn't be more satisfied with your products and services.

I just received a call from your tech to see if I was happy with all the functions of my phone, the quality of phone operations, and if I needed any additional training of any functions I was troubled with. I am amazed with the quality of continued service, and my trouble free, state of the art, phone system.

I am a very happy client with a great phone system provided by a great, knowledgeable company. Thank you for your continued and professional support. I will recommend you to everyone!

Best Regards,

Michael A Wrenn

President and CEO

Have a Great Day!
